

RECYCLED CARBON VEILS

In an ever faster moving world with raw materials rapidly becoming less available, we are increasingly focusing on new ways to re-enter Carbon fiber waste into the value chain. With our carbon veil product range, we found a way to re-life carbon fiber waste and hence reduce scrap levels generated from our carbon fiber conversion process.

ACTIONS BY C. CRAMER & CO

- **RECYCLING ALL SELVAGE YARNS**
- **RECYCLING GENERAL, FIBER AND FABRIC WASTE PROPERLY SORTED**
- **REUSING HEAT GENERATED IN PRODUCTION BY INSTALLING RECUPERATIVE HEAT EXCHANGERS**
